

ANNUAL REPORT

OF THE

GIBRALTAR POLICE AUTHORITY

2015 – 2016

The Community in Policing

GPA ANNUAL REPORT

FOR THE PERIOD 1 April 2015 TO 31 March 2016

The Police Act 2006 (the “Act”) sets out the responsibilities and powers of the Gibraltar Police Authority (hereinafter, the “Authority”). Section 8 of the Act requires the Authority to produce an annual Policing Plan for the Royal Gibraltar Police (the “RGP”) setting targets to support level objectives and priorities of policing for each calendar year commencing on 1st April. The Plan for the year ended 31 March 2016 was prepared and approved by the Authority in March 2015.

The Policing Plan reflects both the priorities of the Governor in respect of those aspects of policing for which he is responsible and, the priorities of the Government in relation to policing as indicated to the Authority by the Chief Minister. The Commissioner of Police is also consulted by the Authority when preparing each annual Policing Plan. Each Policing Plan is generally based on the level of financial and human resources that are likely to be made available to the RGP by the Government for the forthcoming year.

The Policing Plan for the year ended 31 March 2016 also took into account the responses received from the general public to the public consultation questionnaire undertaken by the Authority during the course of December 2014 and January 2015. The Authority is particularly pleased to note that in a subsequent public consultation carried out in December 2015, approximately three-quarters of all respondents agreed with all of the policing priorities set out in the 2015/2016 Policing Plan.

Section 10 of the Act requires the Authority to produce an Annual Report setting out the extent to which the RGP has fulfilled the annual Policing Plan for the previous year. This is the Annual Report which relates to the RGP’s Policing Plan for the year ended 31 March 2016.

The RGP has provided the Authority with its assessment of how it has performed during the year ended 31 March 2016 (included as Appendix A to this report), together with a summary of crime statistics for the year to which this report relates.

PARTICULAR MATTERS OF NOTE IN THE YEAR UNDER REVIEW

The main initiatives the RGP has been involved in during the policing year ended 31 March 2016 are as follows:

THE RGP'S ASSESSMENT OF ITS PERFORMANCE

The RGP's assessment of its own performance is reproduced in full in the Appendix to this Annual Report. It sets out, in detail, the performance of the RGP as assessed by the Senior Management Team in relation to the five areas of priority set out in the Policing Plan 2015/2016.

The Assessment is followed by statistics for the year under review, at pages 38 to 53 of the Appendix.

THE GPA'S ASSESSMENT OF THE RGP'S PERFORMANCE

The following commentary highlights some of the significant issues which the RGP self-assessment reveals.

Achievement of targets:

The Policing Plan tasked the RGP with a total of 47 targets. The attached report provides evidence that:

- 36 targets have been met;
- 7 targets are work-in-progress;
- 4 targets have not been met.

These were set within 7 areas of priority which were as follows:

1. Security (7 targets met, 1 targets in progress) :

Given the continued threat of terrorism present in today's society, the Authority required the RGP to maintain its focus on taking a leading role in ensuring Gibraltar is prepared to deal with any potential threat that may emanate by strengthening their intelligence gathering, assessing the preparedness of potential targets for terrorists, promoting awareness, ensuring the visible presence of officers in key areas and actively engaging in all local initiatives with other relevant agencies.

The RGP has met all the targets under its control continuing to enhance its intelligence gathering capabilities through the dedicated Force Intelligence Unit set up last year which will be significantly augmented following the implementation of the Cyclops Intelligence Module next year. The RGP continues to take a leading role in the Gibraltar Security Council which has been revamped and extended to include additional stakeholders as well as continuing to develop its external network in the area of counter terrorism both in the surrounding area and in the UK.

The RGP has created security patrol matrices to ensure optimum deployment of officers across Gibraltar including BGTW. It has delivered 86 awareness presentations and carried out 7 counter terrorism security advisor surveys in the year.

Regulation of Investigatory Powers Act (RIPA) and Counter Terrorism legislation is drafted and awaiting enactment.

2. Tackling crime (11 targets met):

Gibraltar continues to be a relatively safe jurisdiction and a significant objective of the RGP is to keep it that way through its focus on crime prevention through timely awareness and education initiatives using all available communication platforms, neighbourhood policing and visibility patrols. Nevertheless, once crime does occur, the Authority expects the RGP to be sensitive to victims of crime, particularly vulnerable victims, and maximise detection rates through intelligence led policing.

During the year under review, there has been a decrease in the level of overall crime from 3,603 reports in 2014/15 to 3,246 reports in the current year. However the detection rates have fallen from 57% last year to 49% this year, although the RGP believes that the extended bail periods currently being allocated as a result of the Criminal Procedure and Evidence Act 2011 means it is taking longer to record crimes as detected and is therefore adversely affecting this figure.

Under Operation GibWatch, the RGP has provided many awareness initiatives during the year. Its social media interactions continue to be a popular platform to interact with the public and awareness surveys and presentations have been carried out at various locations and in the local schools.

The focus on victims of crime has continued to increase, with 625 visits having been made during the year as well as 411 visits to vulnerable adults.

The annual public survey carried out by the GPA continues to show that the public considers that the supply and misuse of drugs is still a major problem in Gibraltar and the policing plan tasks the RGP with maintaining or increasing the level of intelligence led targeted operations to deal with Drug Trafficking offences and ensure that Gibraltar becomes a difficult place for drug traffickers to do business. The RGP has carried out a total of 21 serious crime and drug trafficking operations during the period under review and has dealt with a total of 65 drugs trafficking offences with four financial investigations arising from these. In addition the RGP has provided 62 presentations on the dangers of drug misuse and continues to organise the mini-Olympiad and other anti-drug themed events.

3. Community at the centre of policing (3 targets met, 2 targets not met):

Community policing which has at its heart a focus on neighbourhood policing and officer visibility primarily through foot patrols is heavy on resources and falls down the priority list when demands of a more urgent nature arise. Unfortunately, as a result of limited resources in the face of increasing demands for its services, the RGP has been unable to maintain a strong focus on neighbourhood policing and has failed to increase foot patrols as required by the policing plan. Whilst the RGP, through its intelligence led policing and the commitment of its officers is still able to effectively police Gibraltar, as demonstrated by the continued low levels of crime, the limited resources do not allow them to develop the community side of policing which results in the public becoming increasingly dissatisfied with the services provided by the RGP as shown by the results of the GPA's public survey carried out early in 2016. Having said this, substantiated complaints against police officers as investigated by the Police Complaints Board continues to be very low.

The RGP has been able to continue its drive to stamp out anti-social behaviour in areas where this is prevalent and 6 ASB specific operations have been carried out and 1 Anti-Social Behaviour Order has been applied for and is in the judicial system.

The RGP has still not introduced the feedback forms requested in the Policing Plan as a mechanism for stakeholders to provide direct feedback on their experience of the services received from the RGP. These forms are an excellent initiative to promptly gauge the public's view of the RGP's performance on a timely basis and the GPA will require the RGP to introduce these forms in the next policing year without fail.

The RGP continues to develop joint initiatives with partner agencies and relevant bodies and during the year signed a Memorandum of Understanding with the Youth Service that provides a blueprint for the joined up working and strategic direction the Youth Service and the RGP will pursue. In addition a Memorandum of Understanding with the GFA and GFLA are in their final stages of development.

4. Roads policing (3 targets met):

Operation Roadwatch continues to provide effective results and is still the RGP's main focus in this area. Statistics continue to show a decrease in serious traffic accidents.

However, traffic management and fluidity in Gibraltar's heavily congested roads is still a source of frustration for the public and although many times the issues are outside the RGP's control, the public perception as shown by the GPA public survey is that the public is not satisfied with the RGP policing of our roads. The RGP needs to work harder to influence public perception in this regard.

The RGP have used social media effectively to raise awareness of safe driving practices and have conducted two year round campaigns running in parallel with each other *i.e. Don't Drink and Drive* and *Don't Text and Drive* which seem to resonate with the public.

5. Professional Service Delivery (6 targets met, 2 targets in progress and 1 target not met):

As a result of increasing demands on the force not immediately matched by an increase in resources, it is important that the RGP continually reassess its policies and procedures, its human resources requirements and the structure of the force. During the year the RGP has completed a complete review of its policies and procedures and developed a formal programme to update this. A Human Resource Audit, supported by an independent study conducted by a UK consultant styled Working Time Solutions, was submitted to Government in 2014. The HMIC inspection further identified the need for additional resources if levels of service were to be maintained. The Authority is concerned that desired levels of service will be increasingly difficult to achieve with present resources and urges Government to give this review of resources high priority.

On the back of its Investors in People award, the RGP continues to focus on its workforce, having introduced new initiatives to improve communication with its officers and a new Continuous Personal Review System is being implemented which will increase the emphasis on learning and development and supersedes the current Appraisal System. Investment in training continues with the RGP looking to incorporate dedicated Training Days [2 in every ten-week cycle] in a new shift pattern that will also address work life balances.

The Authority tasked the RGP with promoting healthy practices and wellbeing amongst its officers. As a result the RGP has instigated a smoke free policy, to encourage staff to give up smoking, negotiated corporate discounts at local gyms and is developing a voluntary minimum fitness programme amongst its officers. The compulsory drug screening programme that the Authority was keen to see the RGP introduce has not been funded by Government and therefore has not been implemented. The Authority will continue to press Government to support this important initiative.

6. Public Protection (4 targets met, 3 targets in progress and 1 target not met):

The Authority required the RGP to take a proactive and leading role with partner agencies and other stake holders both in Gibraltar and internationally in developing and implementing initiatives to protect the individual, particular, vulnerable persons and minors. This continues to work effectively although some of the initiatives are still in the early stages of development, for example the Gibraltar Public Protection Panel (GPPP), a multi-agency forum designed to coordinate responses in this area and in which the RGP will play a key role.

During the period under review the RGP has conducted 625 Victims of Crime visits and 411 Vulnerable Adult visits. In addition it has performed 22 risk assessments of registered sex offenders and 49 management visits. There has been only 1 instance of a registered sex offender re-offending in the year.

7. Communication (2 targets met, 1 target not met):

The RGP has been extremely active in online and traditional media in the year, despite not having been able to obtain the support of Government for the recruitment of a dedicated media and communications officer. They have established a Communications Forum to strategically plan how, what and when the RGP communicates internally and externally in order to maximise dialogue within both spheres. During the period under review the RGP issued/posted 107 press releases and 1508 tweets from the @RGPolice twitter handle. They have 7794 followers on Twitter and over 5991 'Likes' on their Facebook page.

THE WORK OF THE RGP

The RGP has many responsibilities seldom found in a Force this size. This places a huge pressure on necessarily limited resources and forces the RGP to continually struggle to prioritise initiatives. To provide an idea of the work of the RGP, some of the more notable cases that the RGP has been involved in during the year are set out in pages 25 to 29 in the Appendix.

In addition, the RGP receives many expressions of appreciation during the year. A selection of these is included in pages 30 to 37 of the Appendix.

FUTURE POLICING PLAN

The Policing Plan for 2016/2017 has been developed by the Authority and was presented to Parliament in October 2016. A copy of the may be found on the GPA website at www.gpa.gi.

1 (a) - The RGP will continue to operate the National Intelligence Model

The RGP's business is governed by the National Intelligence Model (NIM), the embodiment of which is the Strategic Threat and Risk Assessment (STRA). This document identifies external and internal threats, assesses the risk and thus enables the RGP to make the best use of its resources and deployments. This document does not only deal with operational matters but also provides invaluable information in respect of workforce planning, succession planning and resilience.

In addition to this the RGP continues to promote the value of the NIM and has launched an intelligence awareness poster campaign both internally and with the general public. The creation of the dedicated Force Intelligence Unit continues to pay dividends and their capabilities will be significantly augmented following the implementation of the Cyclops Intelligence Module in the forthcoming policing year.

For this reason, we assess that we have fully discharged this objective.

1 (b) – Maintain and enhance partnerships with key strategic stakeholders

Locally

The Gibraltar Security Council has been completely revamped and extended with the incorporation of department deputies. This allows for greater joined up working and resilience in this crucial business area. The GSC's Executive Committee (ExCoGSC) has also been extended to include members from the Gibraltar Fire and Rescue Service, the Gibraltar Ambulance Service and the GHA.

The RGP continues to form part of a consultative forum on e-borders, which has now been brought into the remit of the ExCoGSC.

Externally

Work has progressed to link up further with the UK's CT Network with regular attendance by the Commissioner and Head of Intelligence at the National Counter Terrorism Policing Headquarters (NCTPHQ) meetings. The RGP continues to strengthen its networking with the South East CT Unit and further expanding and cementing its links with its Spanish and Portuguese counterparts.

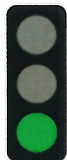

At the tactical level, Special Branch continues to attend CT conferences and engage with their counterparts. For the reasons pleaded above we believe we have fully discharged this objective.

1 (c) – Conduct Counter Terrorism Security surveys

Our Counter Terrorism Security Advisor (CTSA) has conducted a total of 7 CTSA surveys during the period under review with further ones scheduled for 2016/17. To provide strategic direction this work has been absorbed by the ExCoGSC. This will result in a rolling programme of surveys designed to protect Gibraltar's Critical National Infrastructure (CNI).

We assess this objective to have been fully discharged.

1 (d) – Conduct Security Awareness presentations

The RGP has delivered a total of 16 Project Citadel presentations and 70 CTSA presentations [including STAY SAFE] as part of its rolling security awareness programme during the period under review.

We assess this objective to have been fully discharged.

1 (e) – Deploy officers to key areas including points of entry

1 (f) – Conduct intelligence led patrol activity on land and sea

Both these objectives are addressed in this rationale. We continue to work in collaboration with the Borders and Coastguard Agency (BCA) and routinely deploy officers overtly and covertly at our points of entry. Coverage at points of entry is 24/7 with cover extending to incorporate the Airport, Ferry Terminal and Cruise Liner Terminal. Given the current Threat Level our response also mandates armed coverage at these locations.

Security Patrol matrices have been designed to maximise our cover and deterrence across Gibraltar and include its Territorial Waters. This patrol matrix, which is supported by the GDP, is based on a risk assessment process and includes identified areas of Critical National Infrastructure and other locations and/or events we assess are at potential risk. This patrol matrix provides for a 24/7 armed policing capability. The patrol matrix is continuously under review and is adjusted in accordance with intelligence/information received. It is true to say that GDP resource support is key to our coverage.

We therefore assess this objective to have been fully discharged.

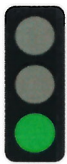

1 (g) – Continue to review and test capabilities through training designed to challenge the RGP and partners in the CT sphere

A CT Table Top exercise (TTX) was carried out in September 2015 involving other law enforcement agencies and the military with a second conducted in March 2016. In addition, an in-house TTX testing our response to a Marauding Terrorist Firearms Attack (MTFA) was held in November 2015.

A live exercise was carried out in December 2015 designed to test our response to an MTFA scenario. This was conducted together with essential services and military colleagues. This is a rolling programme of training events that is managed by the ExCoGSC and lessons learned are ploughed back into the new training events, procurement of equipment, legislative programme *etc.* It is our intention to have our exercises Quality Assured by colleagues at NCTPHQ.

We assess this objective to have been fully discharged.

1 (h) – Pursue the enactment of Regulation of Investigatory Powers Act (RIPA) and Counter Terrorism legislation

RIPA legislation has already been drafted however it is yet to be enacted as Government is waiting for a major review currently under way in the United Kingdom to take its course. It is understood that once that is complete, Government will enact. RIPA will create resource implications for the RGP.

The draft CT legislation is currently with Government's Law Draftsman. It is our understanding that the final piece of work that needs to be completed are the Codes of Practice in relation to Stop and Search Powers. It is also our understanding that this legislation is scheduled to be in place in Summer 2016.

Given the above and whilst beyond our immediate control we assess this objective as being a work in progress.

2 (a) – Reduce level of overall crime and reduce the likelihood of becoming a victim of crime

This objective goes to the core of the RGP's primary role *i.e.* the prevention and detection of crime and the protection of life and property. In order to achieve this objective, the RGP utilises all the means at its disposal in terms of education, awareness and enforcement. Examples of enforcement are self-evident and are contained in our enforcement statistics appended to this report.

Our prevention work takes many forms and ranges from talks delivered by our School Liaison Officers on 'Stranger Danger' through Crime Prevention Surveys to formal presentations to specialised sectors in our community on the dangers of a particular crime and how to avoid becoming a victim. All these awareness campaigns fall under the banner of Operation GibWatch. This operation uses all communication vehicles at the RGP's disposal to disseminate crime prevention advice on myriad issues.

The creation of a Business Advice Dissemination Network where crime prevention advice and emerging crime trends are circulated through the Chamber of Commerce, GFSB, GACO *etc.* has also helped in this regard.

| | 2015/16 | 2014/15 |
|----------------|---------|---------|
| Crime Reports | 3246 | 3603 |
| Detection Rate | 49% | 57% |

There are two innovations in this year's report relating to the reporting on crime figures. Both innovations are designed to provide a more accurate picture of crime levels and crime detection rates in Gibraltar.

Over the past several years we have issued 'end of year' detection rates upon submission of this report in May/June however this has not taken account of the time lag created by the extended bail periods currently being allocated to ensure we abide by the provisions of the Criminal Procedure and Evidence Act 2011. By way of example, last year we reported a 57% detection rate for the policing year. The final [and more accurate] detection rate arrived at once all the cases for the year 2014/15 had been dealt with [November] rose to 62%. We have therefore decided to provide an interim figure in May/June followed by a revised **final** figure in November, which we will publish separate to, but coinciding with, this report.

The second innovation is concerned with separating the crime figures into two categories, (a) Reported Crime and (b) Crime Reports arising from Police action. The first category relates to those instances where members of the public make unsolicited reports of crime to police *e.g.* reports of theft, criminal damage *etc.* The second category is solely concerned with those crime reports that are recorded pursuant to police action *e.g.* possession of drugs, driving whilst over the prescribed limit *etc.*

We believe that providing details of this categorisation **in addition** to the total crime figures, provides a clearer picture of reported crime levels and one that is not affected by the crime reports that are generated pursuant to police activity.

| | 2015/16 | 2014/15 |
|---|---------|---------|
| Crime Reports | 3246 | 3603 |
| Reported Crime | 2258 | 2447 |
| Crime Reports pursuant to Police action | 988 | 1156 |

This simply deals with enforcement activity however our endeavours to reduce the likelihood of becoming a victim of crime extend to the provision of crime prevention awareness advice and visits to victims of crime and vulnerable persons. Figures in respect of these feature below in this segment of the report.

Given that we have reduced the level of overall crime and therefore the likelihood of becoming a victim of crime we assess this objective as having been achieved.

2 (b) – Promote respect for the Rule of Law

This is a fundamental cornerstone of our service delivery. To give effect to this we employ a number of strategies and tools. There must however be a recognition that this is not only a policing issue but rather a socio-cultural one, which the police service has a major responsibility towards addressing. The emergence of Generations Y and Z present specific challenges that need to be addressed by the police albeit as part of a group of major stakeholders such as educationalists, community leaders *etc.*

As part of its commitment to address this issue the RGP continues to deliver talks at schools promoting the Rule of Law by our embedded SLOs. In addition, the Queen's Peace is preserved on a daily basis and at major public events through the effective use of intelligence led targeted patrol and enforcement activity.

Given our continued reduction in Reported Crime and particularly with respect to Public Order offences we assess this objective as achieved.

2 (c) – Engage and cooperate with local and international key strategic stakeholders

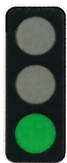

Continuous engagement and partnership working underpin much of the work carried out by the RGP. We constantly endeavour to engage with key strategic stakeholders to tackle crime and security.

On the international front we enjoy good relationships with UK and Spanish law enforcement agencies and we have been attempting to engage with the Moroccan authorities, thus far to no avail although visits are scheduled for early in the next policing year.

On the local front we work jointly with BCA, GDP and HM Customs with varying degrees of success. In addition, there is frequent liaison with the Department of the Environment. However, we regret to report that there remains a lack of engagement at the strategic and tactical levels in certain quarters with examples of this being the, yet to be formalised, Multi Agency Public Protection Arrangements (MAPPA) and the one-way provision [by us] of information to partners with little or no reciprocity. We recognise that this is a cultural issue and we are working towards resolving it to ensure other stakeholders assume their respective responsibilities.

Further examples of joint working are:

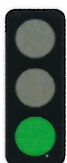

- a. BCA secondments with RGP continue with various operations having been jointly carried out to detect illegal immigration
- b. Joint investigations using RGP specialist PPU officers to interview suspects have taken place with the GDP, whilst at sea both marine sections are working shoulder to shoulder under the arrangements provided in the RGP/GDP Memorandum of Understanding and specific security patrol matrices.
- c. A good relationship is being built with the Ministry of the Environment. Operational support is regularly rendered to them during the course of their enforcement activities. This support has led to four prosecutions against leisure fishermen breaching regulations governing nature protection and/or disorderly behaviour.
- d. Information exchanges and mutual support with Interpol, the UK police service, National Crime Agency, UK intelligence services, FBI, DEA, US Department of Homeland Security, US Naval Criminal Investigative Service, Portuguese Polícia Judiciária, Polícia de Segurança Pública, Guardia Civil and Cuerpo Nacional de Policía continue. For the reasons pleaded above we assess that this objective has been achieved.

2 (d) – Visit victims of crime

This lies at the very core of our service delivery and we address it by dedicating specific resources. We have an officer exclusively dedicated to dealing with the coordination of this business area thus enabling us to deliver a very personalised service. In addition, whenever we deal with complex prosecution cases such as murders or cases of historical sexual abuse we appoint a Family Liaison Officer to provide support to victims and relatives. The level of support has shifted to one with a more personalised contact. These visits incorporate reassurance, feedback and the provision where necessary of crime prevention advice.

We have conducted 625 Victims of Crime visits during the year under review. In addition, we have conducted 411 Vulnerable Adult visits. We therefore assess this objective as achieved.

2 (e) – Conduct Crime Prevention surveys and presentations and reduce likelihood of persons becoming repeat victims

We have conducted CPRU surveys at the Gibraltar International Bank, University of Gibraltar, Care Agency and the area of the Frontier Fence. Additionally, we have delivered presentations on generic crime prevention advice and on online fraud. This is a rolling programme and we use all the communication means at our disposal from presentations at schools on 'Stranger Danger', through social media outputs to traditional media.

Crime prevention awareness advice is widespread and includes the whole range of criminal activity including, increasingly cyber-crime and cyber enabled crime.

Once we implement the new Cyclops IT platform we will be able to gauge the success of these initiatives and reduce the number of repeat victims. Our current systems cannot search to identify repeat victims of crime. Notwithstanding, this our daily analysis of crime reports does not suggest there are a large number of repeat victims. We assess that this objective has been achieved.

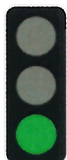

2 (f) – Conduct intelligence led patrol activity within neighbourhood sectors and at sea

Our patrol matrices are designed pursuant to the assessment of our intelligence. We continue to deploy our officers on intelligence led patrols throughout our sectors and this is in addition to the routine patrol activity. Following increases to our Threat Level this has been augmented by the 24/7 deployment of armed police officers to areas assessed to be at greater risk such as areas of Critical National Infrastructure, Public Events, Points of Entry *etc.*

We also continue to patrol our borders and deploy a 24/7 presence at the frontier, airport, Cruise Liner Terminal and Ferry Terminal, the latter only during operational hours. At sea we continue to deploy our maritime assets as part of a systematic though flexible intelligence led patrol matrix together with partner agencies.

For these reasons we assess that this objective has been achieved.

2 (g) – Continue to make use of social and traditional media to provide crime prevention advice

The RGP enjoys an enviable following on our social media platforms and we make full use of this followership to engage in dialogue with our community and to provide topical information on issues of community interest. During the period under review we have issued 304 crime prevention related tweets to our 7500 followers on Twitter. These tweets are linked to our Facebook page and therefore we also reach out to those members of our community who have ‘liked’ us, which currently stands at over 5400. Our ‘reach’ is numbered in the tens of thousands.

Additionally, we routinely issue crime prevention advice on traditional media. During the period under review we have issued advice on Summer Awareness, Motorcycle thefts, Residential Burglaries, Online Fraud and topical scams. We have launched the *Your Practical Guide to Basic Cyber Safety* booklet. The booklet is available for download via the RGP website and digital copies have been circulated to the Chamber of Commerce, GFSB, GACO, Bankers’ Association and Gaming/Betting Operators’ Association.

We assess this objective as having been achieved.

2 (h) – Provide awareness to children and vulnerable adults on the dangers of internet misuse

As mentioned above we have launched the *Your Practical Guide to Basic Cyber Safety* booklet. This has been supplemented by the delivery of 75 presentations on this theme, which include talks delivered by our embedded SLOs at schools.

Vulnerable Adults are a different proposition and one that has necessitated a different approach addressed to their specific needs. To attempt to group them together and provide a generic presentation in a one size fits all fashion, is not conducive to the level of quality of service the RGP aspires to deliver. We have designed a programme of visits that address each individual’s specific needs.

Finally, we support the CAB/GRA Internet Safety campaign. For the reasons pleaded above we assess this objective as achieved.

2 (i) – Provide awareness presentations on the dangers of drugs misuse

Consistent and accurate communication in this area is key and therefore in addition to the scheduled rolling programme of talks delivered by our SLOs we have delivered the following presentations during the period under review:

| | |
|--|----|
| ‘Say no to drugs’ presentations | 18 |
| Drug/Alcohol Awareness presentations | 24 |
| Youth ‘Don’t drink and drive/ride’ presentations | 4 |
| ‘Avoid Binge Drinking’ presentations | 15 |

We therefore assess this objective to have been achieved.

2 (j) – Organise the Mini Olympiad and other banner anti-drug themed events

The RGP Mini-Olympiad and the other anti-drug themed events such as the 5-a-side football tournament during the Christmas period were conducted and as has become the norm they were very successful events enjoying considerable public support thus propagating the message that is at the heart of our campaign ‘Live Life Love Sport’.

In a welcome development the Drugs Advisory Council has been reactivated and Government has taken the view that all stakeholders must now support each other’s anti-drug themed events. This is extremely welcome news given that we have been and are the spearhead for most events. We therefore assess that this objective has been achieved.

2 (k) – Maintain or increase the level of intelligence led operations to deal with serious crime and drug trafficking; and conduct financial investigations

We have carried out a total of 21 serious crime and drug trafficking operations during the period under review. We have dealt with a total of 65 drugs trafficking offences and four financial investigations have issued from these.

We assess this objective to have been achieved.

Policing Priority: **Community at the centre of policing**

3 (a) Implement a youth engagement strategy

We have signed a Memorandum of Understanding with the Youth Service that provides a blueprint for the joined up working and strategic direction the Youth Service and the RGP will pursue in this key business area. The Youth Service and the RGP believe this achieves the requirements of a strategy document and we therefore assess that this objective has been achieved.

3 (b) Tackle Anti-Social Behaviour at source

Our Neighbourhood Policing Teams (NPT) lead in conducting intelligence led patrols and liaising with associations. Both measures are designed to tackle ASB at source using a combination of awareness and enforcement. The NPU has conducted intelligence-led patrols focusing on areas where residents are advising us they are experiencing ASB. Examples of these are Glacis Estate, Laguna Estate, Upper Town, Mid-Harbours, Alameda Estate, Devil's Tower Road etc. A further example of this is our weekly [augmented] deployment on Friday nights.

A total of 6 ASB specific operations have been conducted during the period under review and 1 Anti-Social Behaviour Order has been applied for and is in the judicial system. We therefore assess this objective as achieved.

3 (c) Manage resources to increase visible foot patrols on Gibraltar's streets and neighbourhoods

We manage our resources effectively to maximise foot patrols and officer visibility however our current expenditure on overtime indicates that our present resources are inadequate to enable us to increase foot patrols any further. Despite demand prioritisation, intelligence led deployments of our resources and changes to our configuration, our assessment indicates that this is unachievable. We therefore assess this objective as not achieved.

3 (d) Engage in partnerships with community stakeholders to enhance service to the community

As mentioned at Objective 2(c) above we continue to engage in partnership working with key strategic stakeholders. The latest illustration of this was the signing of a new Memorandum of Understanding with the Youth Service. Additionally, we are in the final stages of negotiating MoUs with the GFA and the GFLA. We assess that this objective has been achieved.

3 (e) Develop and deploy a customer satisfaction form

This has been drafted but is yet to be deployed. The reason for the delay is that we are trying to reconcile the interests of anonymity with our desire to hold people to account should criminal or disciplinary offences be disclosed. Anonymity would result in our inability to pursue matters raised in this type of form. We continue to work on the formula and therefore we assess this objective as work in progress.

4 (a) – Pursue all strands of Operation Roadwatch including education, awareness and enforcement

In terms of awareness we conduct two year round campaigns running in parallel with each other *i.e. Don't Drink and Drive* and *Don't Text and Drive*. We have issued one formal press release, conducted one Traffic and Road Safety Facebook clinic and issue continuous tweets, which are replicated on our Facebook page. To this must be added the daily [weekdays] road safety advice provided by our Traffic Unit. Finally, we have also shared joint press calls with the Ministry of Transport regarding speed indicator signs and rear footrest campaigns.

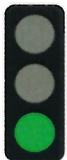

In addition, the mitigation measures for Road Traffic Collision reduction including the use of speed indicators and pavement signs with various road safety messages, which we proposed to government have been purchased and deployed. For its part, enforcement activity continues unabated throughout the course of the year. For this reason we assess this objective as achieved.

4 (b) – Conduct Road Traffic Collision analysis and identify hotspots putting measures in place to mitigate incidence of collisions

The latest iteration of our Road Traffic Collision analysis is currently being drafted and remains pending. However, we are already deploying officers at locations identified through this process and this has resulted in a significant reduction in serious Road Traffic Collisions. Therefore, whilst the document itself is not quite ready [it's nearing completion] we are already applying its principles and this is already paying rich dividends. We therefore assess this objective as achieved.

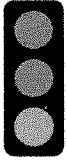

| | 2015/16 | 2014/15 | % |
|------------------|---------|---------|-----------|
| Fatal | 1 | 1 | No change |
| Serious Injuries | 16 | 30 | -47% |
| Minor Injuries | 102 | 107 | -5% |
| Extensive Damage | 10 | 13 | -24% |

4 (c) – Continue to use traditional and social media to raise awareness on the dangers of driver misbehaviour

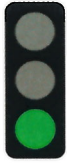

In terms of awareness we conduct two year round campaigns running in parallel with each other *i.e. Don't Drink and Drive* and *Don't Text and Drive*. We have issued one formal press release, conducted one Traffic and Road Safety Facebook clinic and issue continuous tweets, which are replicated on our Facebook page. To this must be added the daily [weekdays] road safety advice provided by our Traffic

Unit. Finally, we have also shared joint press calls with the Ministry of Transport regarding speed indicator signs and rear footrest campaigns. We therefore assess this objective as achieved.

5 (a) – Conduct a review of all policies and Standard Operating Procedures

Both reviews have been conducted throughout the period under review and form part of a formalised update programme. We assess this objective as achieved.

5 (b) – Implement an effective internal two-way communication system

During the period under review we have re-vamped our suggestion box system, implemented SMT drop-in clinics, where a member of the SMT will hold a one-hour clinic every month to which all officers and civilian staff are invited to provide face to face comment, ask questions *etc.* In addition, we have re-established the SMT Newsletter through the monthly Beat magazine and created a group of RGP Ambassadors who are tasked with eliciting concerns and providing information through a system of solutions focus groups.

We are delivering a combination of information provision and creating platforms and channels of communication whereby we can enter into dialogue about topics that are important to our people and help us improve our organisation. We are continuing to pursue the creation of an e-forum, which will further enhance our internal dialogue. For the reasons pleaded above we assess this objective as achieved.

5 (c) – Manage all aspects of the Employee Life Cycle

This is [very advanced] work in progress. Systems already exist to monitor employees throughout recruitment and induction with follow-up mechanisms in place during their probationary period. Subsequent performance is monitored through Evidence Files and Personal Development Plans. However, all of this needs reconciliation and centralisation in order to effectively manage personal development, career planning, succession planning *etc.* All of this is being done through the consolidation of our Learning and Development Strategies and updating our People Strategies that will overarch all these disciplines.

A new Continuous Personal Review System, will be implemented before Summer 2016. This new system will increase the emphasis on learning and development. which supersedes our current Appraisal System and now includes a self-assessment to inform the process better. Monitoring of officer performance will now be done through a progress file, which will supersede the Evidence File. Finally, the Continuous Improvement Forum was created during the period under review to oversee all these matters.

In addition, we provide a workshop for officers who are close to retirement age so that they can make informed choices. Although quite well advanced we assess this objective as work in progress.

5 (d) – Engage with HMGoG to commission a Human Resource Audit

A Human Resource Audit was submitted to Government in 2014 and to date we have had no feedback, save that it is being considered at Cabinet level. This audit was supported by an independent study conducted by a UK consultant styled Working Time Solutions, which has also been submitted to Government. We expect this to be further reinforced by the HMIC inspection conducted during late 2015 whose outcome we await.

The RGP is currently engaged [since January 2016] in a complete Force Restructure programme that encompasses activity measuring, assessing our demand profile, workforce planning *etc.* Initial findings already suggest that there will be a requirement for additional resourcing. Once the final outcomes are identified they will also be submitted to Government to support our HR bid.

The current negotiations with regards to the future of the Gibraltar Defence Police may now also have an impact on any HR considerations. We assess this objective to have been achieved.

5 (e) – Invest in Training and Development to improve workforce

The RGP continues to invest heavily in the training and development of its officers and civilian staff. A Leadership Training Programme for ranks from constable to Inspector has recently started, which is ILM endorsed. This training event is designed to improve our supervisors and by extension the workforce.

The RGP is also looking to incorporate dedicated Training Days [2 in every ten-week cycle] in a new shift pattern that will also address work life balances.

Furthermore, the RGP is looking at improving how we record the skills gained by officers and staff, evaluate training and homogenise it all to address personal developmental needs and organisational needs. Training in other skills that are concerned with service delivery continue. For these reasons we assess this objective as achieved.

5 (f) – Deliver milestones on the integrated Criminal Justice IT Platform

The Project is on schedule with a Go Live scheduled for early in the next policing year. A training programme commenced on the 8th February 2016 and this is designed to train every police officer and civilian staff where appropriate. We assess this objective as achieved.

5 (g) – Research and implement a Duty of Care policy

This has been actioned by the Corporate Development and Policy Department who have consolidated all those policies that deal with Duty of Care into one document. We assess this objective as achieved.

5 (h) – Promote healthy living and develop a Voluntary Minimum Fitness Programme

The RGP is committed to the promotion of healthy living, an example of which is the negotiation of a valuable corporate rate at two of Gibraltar's prestigious gyms. There are about 100 officers/staff on this scheme.

A Smoke Free Policy was implemented in April 2015. The aim of this policy is to protect workers, service users, customers and visitors from exposure to second-hand/passive smoking, offer support to staff to give up smoking and to comply with the smoke free provisions. In addition, we also promoted the GHA's *Enjoy a Smoke-Free Life* campaign by placing posters around the station.

The development of a Voluntary Minimum Fitness Programme has been explored but we encountered difficulties, given our 24/7 configuration in providing suitable slots with the potential Programme Leader so we are re-thinking the best solution to this. We have discussed the possibility of using the expertise of one of our Recruit Police Constables who is an ex Physical Training Instructor in the Army, being in-house we may be able to resolve the issues we encountered with the external service provider. That being said this remains work in progress.

5 (i) – Introduce a compulsory drug screening programme

This proposal was researched, costed and submitted to Government and rejected. We are therefore unable to complete this objective.

6 (a) – Effectively manage Registered Sex Offenders (RSO)

For very obvious reasons the RGP has assessed this as a high risk area and dedicated resourcing is allocated to this. We have met with Minister Sacramento who has instructed other stakeholders to report on what they can actually deliver prior to signing up to the document. We are now awaiting feedback from stakeholders.

Although the Gibraltar Public Protection Panel (GPPP) is yet to meet and formalise the Concordat, work and liaison between the operators of the various agencies is effective. This work is continuous. For our part we have carried out the following activity:

| | |
|---|----|
| Number of Risk Assessments conducted | 22 |
| Number of Management visits | 49 |
| Instances of RSO re-offending | 1 |

Clearly the most important statistic is that describing the total lack of recidivism during the period under review. We therefore assess this objective as achieved.

6 (b) – Pursue admission into the UK’s Violent and Sex Offender Register (ViSOR)

Although we have been admitted to ViSOR we are currently still embroiled in gaining physical admission to the programme. The issue is a technical one involving us securing access to the Public Service Network (Police) [PSN(P)]. For this reason, this has to be shown as work in progress. We are also permanent members of the Management of Sex Offender and Violent Offender Group (MOSOVO).

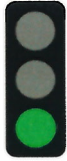

In addition, we have entered into formal relationships with the National Crime Agency regarding RSOs in Spain and are working towards formalising links with the An Garda Síochána.

6 (c) – Visit victims of crime and vulnerable adults to provide feedback and reassurance

Feedback is key to our service provision and providing this in a consistent and personable way is crucial to its effectiveness. Recognising the importance of this area of business we have an officer exclusively dedicated to dealing with coordinating our efforts. This officer trawls through our daily crime reports and engages with colleagues in the Neighbourhood Policing Teams to maximise our efforts.

During the period under review we have conducted **625** Victims of Crime visits and **411** Vulnerable Adult visits. To these must be added the [unquantified] visits and engagements carried out by Crime and Protective Services Division officers throughout the conduct of criminal investigations. We assess this objective as achieved.

6 (d) – Visit victims of domestic violence and work with assailants to prevent re-offending

We have a totally revamped policy on how to handle instances of domestic violence that provides officers with the tools to make the best decisions, thus mitigating the risk of recidivism. Furthermore, we continue to operate a very robust approach to all such instances.

With the exception of the First Responder visit and/or pursuant to the requirements of a prosecution case, we do not routinely visit victims of domestic violence if there has been no dissolution of the couple. It is our belief that to do so in isolation [without social workers, probation officers, health professionals *etc.*] might aggravate the situation and be detrimental to the victim.

Therefore, whilst it remains our aspiration to conduct these visits, the infrastructure, in the form of the Gibraltar Public Protection Panel (GPPP), is not present to facilitate this. We are keen to replicate the system in operation in the UK, which is managed by the MAPPA but until such time as our MAPPA is properly set up we will be unable to deliver this. For this reason, we assess this objective as work in progress.

6 (e) – Participate in the Child Protection Committee and Multi Agency Public Protection Arrangements

We are a permanent member of the Child Protection Committee and attend all meetings at a senior level within the organisation [Chief Inspector and above]. We pioneered the creation of the Gibraltar Public Protection Panels and have attended every meeting [we are the secretaries for the GPPP].

Given our participation we assess this objective as achieved.

6 (f) – Engage in an education and awareness programme with HMGoG to reduce sexual offences, domestic violence and other offences against the person

We have recently signed an MoU with the Youth Service, which *inter alia* deals with this subject matter and we enjoy an excellent working relationship. We are also exploring the possibility of delivering presentations in schools on these subjects through our School Liaison Officers. Furthermore, we are finalising an awareness product that will be shown on GBC.

Although considerable effort is being expended and considerable inroads have been achieved we have yet to see it impact positively on a reduction in all the areas. As such we assess this objective as a work in progress.

6 (g) – Implement, with HMGoG an offender management programme

This is an aspiration on our part and one we have advocated for a number of years. Regrettably it is a victim of the current situation involving the GPPP and as such we will be unable to achieve this objective. Once the GPPP situation is properly resolved we will revisit it with colleagues from other agencies. We assess this objective as not achieved.

6 (h) – Provide generic and specific training on public protection

Our Public Protection Unit and Safeguarding Unit officers are trained to a very high standard. We have adopted a revamped policy to deal with Domestic Violence and officers have been trained up on this. In addition, officers have received training on detecting instances of abuse. In November 2015, a joint training programme with Social Services was delivered. This is providing better resilience and professionalising the service delivery.

Anecdotally, the RGP is recognised as a centre of excellence for the manner we deal with public protection, evidence of which is our status as permanent members of MOSOVO. Additionally, one of our officers was recently invited to deliver a presentation to all other Overseas Territories on this issue. We assess this objective as achieved.

7 (a) – Continue to use traditional and social media to communicate and engage with the community

The provision of timely, cogent information is key to community engagement and, by extension public confidence in the police service, we therefore place great stock in how we manage this business area. During the period under review we issued/posted:

107 press releases
1508 tweets from @RGPolice alone

In addition to our monthly Policing Sector social media clinics we have conducted thematic clinics on Recruitment, Traffic and Road Safety and Beach Safety. We make full use of our social media platforms. We currently boast 7794 followers on Twitter and over 5991 'Likes' on our Facebook page. In addition, we have taken part in a 'fly on the wall' GBC programme that has focused on recruitment and the Initial Training programme. We assess this objective as achieved.

7 (b) – Allocate resources to deal with corporate communications

In January 2015 we created the Corporate Development and Policy Department, part of whose role it is to deal with corporate communications in consonance with the RGP Media Officer. In addition, a number of specified officers and staff are designated to provide information within their respective fields *e.g.* the Crime Prevention and Reduction Unit will provide crime prevention advice, Traffic Unit will promulgate road safety *etc.*

Additionally, the Communications Forum was established in January 2016 with the aim of strategically planning how, what and when we communicate internally and externally in order to maximise dialogue within both spheres. We therefore assess this objective as achieved.

7 (c) – Pursue the recruitment of a media and communications officer

Despite continual efforts this has been rejected by successive governments for a great number of years. The Commissioner's Staff Officer [inspector] spends approximately 90% of his time on this task, which is in addition to his main role. We therefore assess this objective as not achieved.

INCIDENTS OF INTEREST

There follows a summarised series of incidents of interest that the RGP has dealt with during the year under review:

April 2015

At 1245hrs on the **1st April 2015** the Royal Gibraltar Police Marine Section was deployed to an area one mile south of Europa Point to intercept a suspect vessel. As a result 2 Spanish nationals were arrested and 1 bale of Cannabis Resin weighing approx. 30kg was recovered by officers with a street value of approx. £150,000.00

June 2015

Diligent enquires and surveillance carried out by Royal Gibraltar Police and Borders & Coastguard Agency officers working together on an illegal immigration matter led to the uncovering and disrupting of an organised crime group operating in the Costa Del Sol. The criminal group was engaged in human trafficking by employing fraudulent methods to mislead immigration officials in Spain, Gibraltar and UK. In May the Gibraltar agencies detected two Albanian nationals bearing false identification documents who were intending to travel to the UK from Gibraltar International Airport. They were arrested. These arrests sparked off an investigation which led to the identification of a third individual suspected to be a facilitator and important member of the criminal group.

A process of information exchange, surveillance and close liaison thus began with the 'Cuerpo Nacional de Policía, Sección de Extranjería' (Spain's national police with responsibility for Immigration). Another two Albanian subjects were detected in separate instances by RGP/BCA officers bearing similar false identification documents and trying to use Gibraltar as a platform to reach the UK.

On Wednesday **17th June 2015**, following a lengthy and co-ordinated surveillance operation a further two Albanian nationals were intercepted and arrested by the Spanish Police after their plans to board a plane in Gibraltar to the UK were foiled. The facilitator, a German national of Rumanian origin and who was identified in the first instance by the Gibraltar authorities was also arrested.

July 2015

Shortly before 0320hrs on Saturday **11th July 2015**, RGP officers were alerted by officers of HM Customs to a locally registered suspect vehicle believed to be involved in illicit tobacco activity. Minutes later the vehicle in question was seen driving at speed along Devil's Tower Road, the driver of which failed to stop despite repeated instructions to do so. A chase then ensued which led officers towards Sir Herbert Miles Road on the approach to The Caleta Palace Hotel where RGP officers blocked off the road with a marked police vehicle.

In his attempt to drive past the police vehicle, the driver, drove towards two officers who had positioned themselves to one side of the police vehicle and were signalling the driver of the vehicle to stop. One of the officers dived to one side to avoid being hit by the on-coming vehicle whilst the

second officer was hit with a glancing blow from the vehicle which left the officer lying injured on the side of the road.

The vehicle came to a halt a short distance away whereupon the assailant attempted to flee from the area on foot. Upon being challenged by police he resisted arrest and elbowed an officer in his face, causing swelling and bruising to the officer's eye. The defendant was subsequently restrained and taken into Police Custody. A search of the vehicle revealed 12 boxes containing a total of 120,000 cigarettes of various brands with an estimated value of approximately £12,000.

All three injured RGP officers were conveyed to St. Bernard's Hospital where they were shortly after released after being treated for various injuries of a non-life threatening nature. The defendant was sentenced to 24 months and 5 years disqualified from driving.

On Friday **24th July 2015**, officers of the RGP Drug Squad instigated 'Operation CUSEK'. Shortly after 2015hrs that same evening RGP Drug Squad officers stopped 57 year old local man, in the area of Marina Bay. The defendant was searched at the scene and found to be in possession of 12 individual wrappers containing a white powder suspected to be Cocaine.

He was immediately arrested by Police on suspicion of being in unlawful possession of the said drugs and being in unlawful possession of the drugs with intent to supply another or others. He was then conveyed to his residence where a search resulted in the seizure of a further 50 grams of suspected Cocaine (30 grams were individually wrapped and a further 20 grams were wrapped in two 10-gram wrappers). The search was conducted with the assistance of RGP Search Dogs.

During the search, drugs paraphernalia was also seized as were monies and mobile telephones. The defendant was conveyed to Police Headquarters where he was interviewed and later charged.

A Local man was arrested on **31st July 2015** by officers of the RGP Criminal Investigations Department following an investigation into allegations of sexual assault upon a child. As a result, the defendant has been charged with various offences for which he appeared before the Magistrates' Court.

August 2015

During the early hours of the morning of the **4th August**, the RGP Marine Section were alerted by Guardia Civil to the presence of a suspect jet ski on the east side of Gibraltar. On the duty crew deploying to the area, the jet-ski was sighted loaded with what was suspected to be 5 bales of Cannabis Resin. The navigator, later confirmed as a Moroccan national, immediately sped away in an attempt to evade capture. During the chase, the defendant carried out dangerous manoeuvres and managed to jettison 2 suspect bales. He was eventually stopped and arrested and 3 bales of suspected Cannabis Resin with a total approximate weight of 100kgs seized. The Cannabis Resin seized has a street value of approximately £300,000.

September 2015

On the **30th September**, as a result of an intensive investigation instigated by the Safeguarding Unit of the Royal Gibraltar Police, a man was convicted as follows:

| | |
|---|--|
| Distribution of Indecent Images of Children | 32 months' imprisonment |
| Possession of Indecent Images of Children | 18 months' imprisonment (to run concurrent with charge 1) |
| Two counts of Voyeurism | 8 months' imprisonment on both charges, to run concurrent to each other but consecutively to charges 1 & 2 |
| Three Counts of Voyeurism | 4 months' imprisonment on each charge to run concurrent but consecutively to charges 1, 2 & 3. |

Shortly after 5pm on Wednesday **30th September 2015**, RGP Marine Crews were alerted to a large number of suspected bales of Cannabis Resin floating in the waters off Eastern Beach, approximately one nautical mile from shore. Upon arrival at the area Police were met by the master of a local sailing vessel who pointed out the location of the suspect bales to Police. RGP then proceeded to recover an initial 18 bales from the area in question and began a grid search of the immediate area, resulting in further bales being spotted about a mile east off Catalan Bay.

HM Customs were contacted and attended to assist with the search which resulted in a total of 67 bales being retrieved from the sea. The total weight of the Cannabis approached two and a half tonnes with a street value close to seven million pounds. The RGP continue to investigate the circumstances leading to this find.

October 2015

The Royal Gibraltar Police warned the public of a new online sex and attempted blackmail scam that had been targeting Gibraltar's Facebook users. In this type of scam, it is common for those targeted to receive friend requests from females, who after brief interaction, request those targeted to activate their webcams. After some initial interaction, victims may be asked to either engage in a sexual act in front of their webcam, or have a doctored image taken from the victim simulating him/her engaging in sexual acts. Scammers will then threaten the victim with distributing said video/images on the internet, demanding payments that can range from hundreds to thousands of pounds. The advice in these cases is to never accept a friend request from anyone you do not know, and if you do become the target of any criminal activity, you should report the matter to the Royal Gibraltar Police.

November 2015

On the **16th November 2015**, following the terrorist atrocities which occurred in Paris on Friday 13th November 2015, the 'STAY SAFE' message was reinforced by the Royal Gibraltar Police.

A police spokesman said *'Following discussions of the Gibraltar Security Council at the weekend we are strengthening our Policing stance and have made strategic changes to both the policing profile of major events and officer presence in key areas. This is to ensure that our community feels safe to go about their daily lives. The strongest message we can send to terrorists is to go about our daily lives as normal, and show that they cannot overcome our community by the use of fear and intimidation'*.

December 2015

Shortly after midday on the **13th December**, two RGP Traffic Officers engaged in traffic duties in the area of Europort Road below Mid Harbours Estate were assaulted and injured after they had stopped a local youth on a moped with a view to addressing an alleged traffic offence relating to the manner of his driving.

As a result of the incident, the eighteen year old local male rider and a local female in her early twenties were arrested by Police on suspicion of assault. On making the arrests one of the officers sustained two fractured fingers whilst the other sustained a dislocated shoulder. Both the male and female involved are currently on Police bail.

January 2016

RGP Marine Section officers recovered a total of 12 bales of Cannabis Resin weighing approximately 360kgs, following a high speed pursuit on the eastern side of British Gibraltar Territorial Waters in the early hours of Saturday morning. The incident came about when the crew on-board RGP Interceptor "Sir John Chapple" detected and challenged a radar contact south of Europa Point during a routine patrol.

The suspect vessel, a 10-meter RHIB crewed by four occupants, was loaded with Cannabis Resin bales, and performed evasive manoeuvres whilst its occupants jettisoned several bales as it fled east into the Mediterranean, where the RGP Interceptor discontinued its pursuit. An extensive search of the area travelled during the pursuit resulted with officers recovering 12 bales of Cannabis Resin, with a total street value of approximately £1.8 million.

February 2016

Officers of the Royal Gibraltar Police Marine Section were rammed by suspected drug smugglers during a chase on the afternoon of 7th February 2016. Shortly before 5pm, officers of the RGP Marine Section were on patrol aboard the interceptor vessel Sir John Chapple. The crew had earlier chased a 12 metre Rigid Hull Inflatable Boat [RHIB], with four occupants, out of BGTW.

Whilst stationary off Europa Point they were alerted to the presence of two RHIBs about 4 miles off the eastern end of the runway. Shortly after the crew were informed that one of the two vessels was now navigating slowly in a southerly direction and about three miles east off Eastern Beach. The crew then proceeded north on an interception course. On nearing the suspect vessel the navigator of the RHIB carried out an evasive manoeuvre which culminated with a direct thrust at the RGP RHIB colliding with the stern and damaging one of the four engines. The suspect RHIB was approximately 13 metres in length and was carrying four occupants. As a result of the collision they made good their escape.

The RGP officers, operating their RHIB on three engines, then gave chase to the smaller second vessel which was further to the north and carrying six occupants. This vessel made good its escape into Spanish waters. Two of its occupants were later apprehended by the Spanish authorities once onshore. The RGP officers then returned to base with their damaged RHIB escorted by a Gibraltar Defence Police RHIB which had deployed to assist.

Officers of the Crime and Protective Services Division seized a substantial quantity of tobacco valued at approximately £110,000. The tobacco was seized from a store within Francis Buildings on the 17th February 2016. Three men and a juvenile were arrested in connection with the alleged offence. A twenty-two year old local man was also arrested on suspicion of being knowingly concerned in the attempted exportation of tobacco.

March 2016

A 19 year old local man has been charged with affray following the posting of a video on the internet showing an assault. He was arrested on the **17th March** and later charged to appear at the Magistrates' Court.

Following a tip off from the RGP, the US Department of Homeland Security effected arrests that led to the dismantling of a paedophile ring in the United States.

EXPRESSIONS OF APPRECIATION

Work with Our Schools and Young People

Here is a selection of expressions of appreciation in this category:

"Yesterday afternoon we took a group of children to the police traffic department. The children had a very cultural lecture given by PC99, it was intellectual, interesting, fun, I have no words to describe how good it was. They were helpful, not only PC99 but everybody around including Denisse who is a PC and others there. Simon answered all the questions beautifully, he was patient and had the right answer for every question a Little man can do. We are very pleased.

"I just wanted to say a big thank you on behalf of my daughter's class at the Hebrew School who came for a visit to New Mole Station yesterday afternoon. PC Simon Debono gave the 14 girls (aged 10) a tour of the station and they saw the Custody Suite, the Control Room and the CSI unit. They were enthralled! PC Debono gave us all many insights and the girls had an amazing and very educational time. It certainly opened their eyes to your work and went a long way in demonstrating the importance in strengthening community relations with the police. Please pass on my thanks to PC Debono and the Schools Liaison Team, as well as the CSI team, and to all the officers for their time and patience with the girls and for answering their numerous questions."

Received from Mrs F Ferro, Headteacher, Governor's Meadow First School and Nursery

"As we draw close to the end of academic year 2014-2015, Governor's Meadow First School would once again like to take this opportunity to commend PC 199 Daniel Rodriguez for his supportive role as our School Liaison Officer. PC 199 Daniel Rodriguez has once again demonstrated his commitment and dedication to the duties involved in his role here at our school. PC 199 Daniel Rodriguez takes his responsibilities seriously. He is trustworthy and reliable and is an effective member of our school team.

PC 199 Daniel Rodriguez continues to have an excellent rapport with Senior Management and members of the teaching community. He supports the school through regular visits and meetings with Senior Management and is always there at the end of a phone or via e-mail.

PC 199 Daniel Rodriguez is very approachable. We look forward to this presentation talks to our pupils throughout the course of the academic year and his caring and gentle approach with our pupils; an essential quality for establishing an effective relationship between the police community and pupils.

PC 199 Daniel Rodriguez is always available to meet with Senior Management in order to discuss our concerns. He is most helpful in organising traffic arrangements for First Holy Communions. He is always willing to come along with us as adult support on school trips. Senior Management look forward to working with PC 199 Daniel Rodriguez in academic year 2015-2016 as our School's Liaison Officer."

"My children attended the police kids' camp this past week and I wanted to say what a thoroughly great experience it was for them. It was a well thought out, engaging time for the kids and they came home each day full of great stories and information about what they had experienced and learned about policing. I wanted to thank the RGP particularly the officers and helpers from the school liaison unit involved in making this week so special for my children."

"My son had a great week on the summer camp, being able to experience different aspects of the RGP. The liaison officers were friendly and made my sons experience fun and informative and helped with his confidence, being relatively new to Gibraltar."

My son attended the summer camp and what a brilliant week he had. The whole programme of events was well thought out, organised and professional. It gave the kids a sense of the difference areas of Police work whilst having great fun. PC Rodriguez, PC Debono and other personnel involved made the kids experience really special and gave parents confidence that they would be well supervised. What a great way to get the kids involved with the local police and encourage positive relations. Brilliant and worthwhile. Looking forward to next year!

Good morning, I would like to yet again congratulate all involved in the kid's summer camp. My daughter Lily went last week and she had an absolute blast as did my son Owen last year. It is educational, fun and hard work and the amount of effort put in by those involved should be awarded. Please keep it going as I feel all children should be involved in your camp as it is wonderful.

On behalf of both my children, I would like to thank the officers involved in the Police Summer Camp. Both my children thoroughly enjoyed the experience and to them every day was an adventure as activities varied daily and were highly suitable for the age range. The officers involved worked very hard to ensure the children felt comfortable and enjoyed it to the fullest. So much so that my daughter is convinced she wants to be a police officer when she is older.

I just wish to say a massive thanks to all involved in the Police Summer Camp the week of 10th to 14th August when my children, Eleanor and Sebastian Hedley, attended. They both had a really amazing time and were made to feel very welcome and comfortable. A special thanks too for their birthday surprise - a lovely card each and yummy donuts! The team of officers were all very enthusiastic and friendly, with lots of energy! They lived every day and can't decide what their favourite thing was as they loved it all! They have both said they would Love to attend again next year, and their younger brother is super keen too! Many thanks for a hugely successful and fun camp!

Received from Caroline Dixon, Youth and Community Worker

"I would just like to take the opportunity on behalf of the young people who participated in the La Finca residential last week to say a big thankyou to the Police Commissioning Committee for funding the weekend and giving the young people an experience they will not forget. The young people had a wonderful time trying out new challenges. As you know many of them do not have positive role models in their lives especially male and this was made evident in their evaluation forms where many of them wrote about how much they enjoyed the time spent with Earon and Steve. I sincerely hope the relationship built by the young people with Steve and Earon will continue in its positive manner through the coming months as they both had a very positive impact upon the young people."

Individual Officer Acknowledgements

Here is a selection of expressions of appreciation in this category:

Received from the Laguna Estate Tenants' Association

As you are aware since the Neighbourhood Policing Team was created, issues slowly began to get better. We have had three teams already and three Officers taking the lead and responsible for the Estate Roger Morello, Douglas P Balloqui and Mark Garratt. The three of them have shown not only professionalism, but also the approach, attitude and communication has been excellent to say the least.

They have worked hard on many issues and I must stress that they have done a fantastic job, considering the problems we have had. It has been a pleasure working with the above mentioned, and I hope that the Association will continue to work closely with the Neighbourhood Policing for the well being of the Estate.

Received from John Sanchez, GONHS Council Member

"On behalf of GONHS we would like to place on record our thanks for the quick response from your Duty Marine Section Crew (PC 141 Bonfiglio, PC 43 McKnight, PC 151 Phillips, PC 193 Oliveira) yesterday afternoon our call for assistance, when two Griffon Vultures were downed into the sea off Europa Point by the Gulls.

Their rapid response resulted in the two birds being picked up from the sea in a short time. Unfortunately, one of the birds later died but the other is now recovering well with our Raptor Rehabilitation Unit. It is very gratifying for us to know that despite your numerous commitments your crew were willing to help our organisation in the recovery of these birds.

Once fully rehabilitated we shall be wing tagging the bird and releasing it back into the wild so it can continue on its migration into Europe. Should any of your officers that helped us wish to see the rewards of their efforts in saving this impressive bird, I shall be happy to contact you and let you know as to when we shall be releasing it. Once again thank you for your assistance."

Received from Coronel Jefe Marcial Vazquez Ginel, Comandancia de Algeciras

"Con motivo de mi próximo pase a la reserva quiero agradecerle la inestimable colaboración que durante estos años has mantenido con esta Comandancia de la Guardia Civil. Deseo y espero que esta sintonía de trabajo se mantenga con mi sucesor al mando de la Guardia Civil en el Campo de Gibraltar. Durante estos años que he estado al frente de esta Comandancia me ha permitido no solo el acercamiento profesional sino personal a esta sociedad campo gibraltareña a la que tendré siempre en mi corazón. Una vez pase a la reserva fijare mi domicilio en Almería, salvo que me asignen un nuevo destino de lo que te informare oportunamente. Haz extensible mi agradecimiento a todo tu personal."

"I am writing to say thank you for the excellent service I received on the early hours of Sunday morning. Your officers were called to a domestic situation at Gib 5. I had been called by the owner of the property as my son was present there. On arrival I was greeted by Officer PC 171 Martinez (dog handler), who demonstrated empathy, understanding and great maturity for his 25 years of age. He acted as a true professional at all times while attending to both myself and my son. The two young officers with him (PC 91 Brooks and PC

162 Benhakim) were also polite and acted in a professional manner and they certainly had a very good leader/teacher to learn from.

I would like to say that I feel PC Martinez is a true asset to your professional team and I would be most grateful if you could thank him and both PC 91 Brooks and PC 162 Benhakim for the support they gave to both myself and my son."

Received from the Managing Board Jewish Community

"I write on behalf of my Community to express our deep appreciation for the sensitive and efficient protection offered to us during the Chief Rabbi's visit last weekend.

Our Project Director, has specifically asked me to commend Inspector John Goodman and his team for the cooperation offered to Douglas and his team. There was tremendous rapport between both sides creating a wonderful sense of teamwork.

Received from Andrew Anthony

"My name is Andrew Anthony I have recently volunteered to be an Appropriate Adult for child line. My first shift started at 18:00 and I was called by one of your offices a few minutes after that. They had a Juvenile awaiting processing on the date of 25th June

I am writing this email as I was personally impressed with the manner of which this Juvenile was treated. There was of a lot of support and reassurance which helped this juvenile through this difficult time especially without a family member present

The three officers involved included PC Brooke, Custody Sergeant Bruce and one other that conducted the processing of finger prints and pictures

Being my first time as an AA it made my job much easier and I look forward to working with the police in the future."

Received from Gary Roberts, Chief Constable, Isle of Man Constabulary

"I thought it important that I should drop you a line to thank you for allowing Chief Inspector Paul Richardson to work with us recently. I am sorry that I have taken so long to do this, but hopefully this will not detract from the message. Paul worked hard when he was here and the fresh eyes that he brought to the Isle of Man issues made his contribution especially worthwhile. Please pass on my thanks to him.

I hope that this moves us further steps along the road of great collaboration between all of the small police services."

Received from Mr Rob Allen, Chief Police Officer, Gibraltar Defence Police

"I wish to place on record my thanks to you and all those officers involved in the delivery of the recent Recruit Training. It is clear to me that the very highest standard of training has been delivered and I would be grateful if you would convey my thanks both personally and on behalf of the Gibraltar Defence Police to:

Chief Inspector John Caruana

Inspector John Field

Sergeant Neil Zammitt

Constable Sharon Berini

Together with our own Sergeant Martin Hosken (to whom I will be writing separately), these officers made up a formidable team which has nurtured and developed 27 officers of both forces through a protracted period of training. All of the feedback has been hugely positive and I think that the training staff should be rightly proud of what has been accomplished.

On a personal note, I would also like to thank you for everything you continue to do to help in bringing our two forces ever closer together. There can be no stronger message of solidarity than that demonstrated by the officers' training together, and ultimately passing out together, in front of their families and in full public view. Both the MOD and wider Gibraltar and its public has benefited from your vision of how policing should be conducted in Gibraltar. I am extremely grateful for the way that you have assisted in bringing the two forces together and thereby ensuring a cohesion that is of benefit to all."

Received from Mrs Liesl Torres CEO Department of the Environment and Climate Change.

On Monday the Departmental EPOs were involved in a dolphin rescue at Western Beach. An officer of the RGP assisted my team, unfortunately I do not know who the Officer is but I would like to offer my sincere thanks to him for his invaluable assistance with the rescue. The officer involved was PC171 Martinez.

Received from Mr Damian Broton President Stay Clean Gibraltar.

"The stay Clean Gibraltar Charity would like to thank your staff for the recent charity boat pull held in Main Street on the 6th June 2015.

Needless to say that the monies raised has helped the charity enormously in acquiring much needed funds and will ensure its continued growth & success.

Please extend our gratitude to Chief Inspector Caruana, Inspector Field, Head of Marine Section Inspector Buhagiar, Sergeant Stone and all RGP Officers, Recruits & Voluntary helpers who supported the event.

Without your support it would have simply not been possible.

Looking forward to working with you again with the mutual aim of helping our community from the ills of addiction.

Received from Mr Conrad J Glass MBE Inspector of Police Tristan da Cunha

"I would like to thank the Royal Gibraltar Police Force for allowing Jonathan to be seconded to Tristan to support me in policing the remote community of Tristan da Cunha. As the only full time serving Police Officer it's been a bonus to have Jonathan's help in policing the island. It allowed me to take some much needed time on leave.

Jonathan was appointed Community Liaison Officer from August to December 2015. During his term in office Jonathan carried the challenging task of policing the world's remotest community. Jonathan integrated well to the way of life on Tristan and is well accepted and respected by the community which he served.

Jonathan performed a wide range of duties as required by the department's policy – Dealing with Traffic Offences, Domestic Disputes, Child Protection, School Liaison, Teaching First Aid, Youth outdoor activities, Health & Safety, Immigration and Customs control and up dated Administrative documents.

While performing his duties Jonathan showed a high standard of professionalism displaying efficiency, tact, sensitivity, firm but fair when dealing with the public. Jonathan's sense of humour and kindness has endeared him well with the children, school teachers and parents.

It has been a pleasure and honour to work with Jonathan. I am forever grateful for his advice and support when having to make difficult decisions on complex cases. I wish Jonathan all the best for the future, and hope one day he will consider returning to police the community of Tristan da Cunha, to which he will be forever part of and fondly remembered."

Received from Anne Heselhaus – Schroer, Chief of Police of Gelsenkirchen

"Internship of the Police Student Dennis Kreutzer in July 2015. In the course of the training for higher ranks, you enabled the police student Dennis Kreutzer from North Rhine-Westphalia to take part in a two week internship in Gibraltar.

Dennis Kreutzer enjoyed the internship very much. He has gained a lot of experience that he will never forget. He was overwhelmed by the hospitality you offered.

I would like to thank you and your colleagues from the Royal Gibraltar Police. This was the third time you enabled the internship and I'm sure that hosting foreign students means a lot of extra work for you and your staff. Nonetheless I hope that our student has been able to give some experience and information from Germany in return.

In particular, I would like to mention Inspector John Field. After Inspector William Gomez has moved the department, Inspector Field has also been a great and reliable contact person. Please give my thanks to all colleagues of yours that were involved in the internship. I would be delighted to continue our cooperation. If there is ever something I can do for you, don't hesitate to contact me."

Received from Mr Trevor Botting, Chief of Police, St Helena, Ascension Island and Tristan Da Cunha

"I am writing about the recent assistance you have provided to the St Helena Police Service and my Customs colleagues through the dog training provided by Sgt Louis Baglietto. Louis was a credit to you, the Royal Gibraltar Police and of course himself throughout his time on St Helena. Louis was professional, knowledgeable, respectful and committed and I am delighted at what was achieved during his two weeks on the Island.

I am keen to explore building on the last two weeks with an annual provision of training through partnership with the Royal Gibraltar Police and wondered if you would be open to a discussion as to how we can make this happen?

In the meantime, please pass my thanks and best onto Louis. He would be welcome back on St Helena anytime."

Received from Keith and Sandra Anderson

"Hi Michael (PC 49 Michael Rocca), thank you for your email. We feel that a fair & just outcome has been achieved. We wish to thank you for your professional & caring attitude throughout this time. Many thanks also to your colleague & all the police. Thanks also to the dedicated paramedics & staff at the hospital.

We consider Gibraltar to be the safest and family friendly place to live. We wish all Gibraltar continued prosperity and happiness and hope that Gibraltar will remain a much and respected part of the U.K. for as long as the people wish it.

Take care and best wishes"

Received from Chief Constable Sir Jon Murphy Merseyside Police

Thank you for your kind message of condolence relating to the murder of PC David Philips. We are all one big family in the police service and despite dealing with tragedy on a daily basis it is very hard when we lose one of our own.

David was an excellent officer, well-liked and respected by his colleagues. It is indeed a true reflection of his standing when he was described as being the foundation of his section.

This was such a senseless act, which has not just led to a loss of life but the on-going misery to David's family, friends and colleagues.

We all take great comfort from the kind words that we have received from all quarters and I will ensure your sentiments are passed on to the family.

Received by Naomi Hassan-Weisfogel via e-mail

"You lead the RGP Under the banner of community policing and care. You certainly lead by example and that's why you succeed in what you do.

I do admire your style of care and attention to our community.

Thank you for everything.

You were extremely kind this morning- and you didn't delegate it - you did it yourself!

Thank you!"

Congratulatory Correspondence

Here is a selection of expressions of appreciation in this category:

Freedom of the City

Received from Mr J W W McKay, Retired Deputy Commissioner of Police

"It is with great pride that I learned that the Royal Gibraltar Police has been granted the Freedom of the City.

Congratulations to you and all the members of the Force, including your great Civilian Staff who form such an essential part of your organisation.

I recall when we were awarded the Royal 'prefix' to our name. It was a very proud day for the organisation and our families. (It involved hard work, preparing for the day and celebrations)

I wish you and all your team all the best for the future.

Congratulations again, well done."

Received from Mr Albert Isola MP, Minister for Financial Services & Gaming

"Unfortunately, I shall be unable to attend the ceremony marking the granting of the Freedom of the City to the Royal Gibraltar Police Force this coming Saturday as I shall be away from Gibraltar. I know this will be a very proud day for the Force and its current members, as well as of course, to all former members of the RGP who will join in the celebrations.

I wish you a deservedly enjoyable day, and much regret that I will be unable to be there in person. My sincere congratulations to you and the entire RGP family."

Received from Mr Joseph Louis Vinet

"I write principally to apologise for being unable to attend, as a Retired Police Officer, the Parade on the occasion of the Royal Gibraltar Police receiving the honour of the Freedom of the City on Saturday 26th September. regrettably I am away from Gibraltar on that date due to longstanding travel arrangements.

Given how proud I am and will always be of my time within the Royal Gibraltar Police, it would have been a pleasure, privilege and an honour to have taken part in the parade, particularly with you as a Commissioner of Police, and I take this opportunity to congratulate you and all the RGP on this important occasion. I also place on record the contribution of the Chief Minister, the Hon Fabian Picardo QC MP, for being instrumental in conferring this great honour."

Received from Ms Violet Schembri Buchanan, Indiana, USA

"Let me congratulate you on your Freedom of the City Award.

I am the former WPC Violet Schembri, one of the first four policewomen in Gibraltar, dating back to 1965. If I had been in Gibraltar I would certainly have attended your wonderful parade. Thank you all for your service to the people of Gibraltar."

Received from Mr Andrew Bonfante, Chief Executive Borders & Coastguard Agency

"On a personal note and on behalf of the Agency I would like to extend my most sincere thanks to you and to your force for an excellent parade on Saturday morning. The appearance and bearing and general turnout of all three guards was exemplary, and I must make special mention of the foot drill which show cased the occasion.

It was a proud day for all of you and I was honoured to have been asked to share it with you, but more importantly it was a day you shared with Gibraltar who was equally proud. The RGP perform a difficult and vitally important role for Gibraltar which unfortunately is seldom appreciated or indeed understood and as a result have had a fair share of criticism, but you can take comfort that on Saturday Gibraltar did indeed show its appreciation. Well done and congratulations to all!"

Investors in People GOLD Award

John Gonçalves – GPA Chairman

"Dear Eddie,

I am delighted to learn that the Royal Gibraltar Police has been awarded the Investors in People Gold Award. Please convey heartiest congratulations to all the officers and civilian support staff from the members of the Gibraltar Police Authority. Best regards"

Albert Danino – GPA

"Excellent news!"

Fabian Picardo – Chief Minister of Gibraltar

"An excellent result! Very very well done!"

Received from Lt Gen Sir Edward Davis CB CBE – His Excellency the Governor

"Eddie, fantastic. Having been through the IIP process, I recognise the singular achievement that this award represents. No surprise given the superb people in the RGP that I have had the privilege of meeting since my arrival on the Rock. Congratulations to the RGP. And please pass on my particular gratitude to the project team. Wonderful news."
