for the Government.

EXPLANATORY MEMORANDUM

These Regulations implement in Gibraltar Regulation (EU) 2024/1157 of the European Parliament and of the Council of 11 April 2024 on shipments of waste, amending Regulations (EU) No 1257/2013 and (EU) 2020/1056 and repealing Regulations (EC) No 1013/2006 and (EC) No 1418/2007.

Regulation (EU) 2024/1157 repeals and replaces Regulation (EC) No 1013/2006 in the EU, subject to detailed transitional provisions in Articles 85 and 86 of the 2024 Regulation. These Regulations accordingly provide for the phased replacement of the 1013/2006 Regulation in

Gibraltar by the 2024 Regulation as adapted for Gibraltar, reflecting the EU transitional timetable. The retained 1013/2006 Regulation is not revoked but continues to apply during a transitional period, with the 2024 Regulation progressively taking effect in accordance with Regulation 39.

The principal transitional provisions are as follows: Article 30 of the 1013/2006 Regulation (international agreements concerning transit) ceases on commencement; the general body of the 1013/2006 Regulation continues until the Implementation Date (21 May 2026 or, if later, the date of commencement); Article 51 (imports for disposal) continues until 31 December 2026 or 18 months after commencement; Article 37 (prohibition on exports for disposal) continues for three years after the Implementation Date; and Commission Regulation (EC) No 1418/2007 continues for three years after the Implementation Date. Shipments notified under the 1013/2006 Regulation before the Implementation Date continue to be governed by that Regulation, with time limits for completion of one year (consented shipments), three years (pre-consented facility shipments) and five years (pre-consents). The phased introduction of new provisions — including the plastic waste export prohibition under Article 39(1)(d), the non-hazardous waste export controls under Article 40, and the facility audit requirements under Articles 46 and 47 — is provided. The 1013/2006 Regulation ceases definitively five years after the Implementation Date, subject to limited savings for in-flight shipments and pre-consents.

The principal adaptations made to the 2024 Regulation for the purposes of Gibraltar law are as follows:

References to “the Union” are replaced with references to “Gibraltar”. References to “Member States” are replaced with references to “Gibraltar”, “the Minister” or “the competent authority in Gibraltar”, as the context requires. References to “Union law” or “Union legislation” are replaced with references to “retained EU law”. The competent authority for Gibraltar continues to be designated under sections 98D and 98E of the Public Health Act.

The list of overseas countries and territories is adapted to reflect British Overseas Territories. Provisions relating to the European Commission's enforcement powers (Articles 67 to 71 of the 2024 Regulation), the waste shipment enforcement group (Article 66), the committee procedure and delegated acts mechanism (Articles 80 and 81) are adapted to confer equivalent powers on the Minister. The electronic system requirements under Article 27 are adapted to enable the Minister to establish, maintain or participate in appropriate electronic systems. New provisions in the 2024 Regulation concerning the export of non-hazardous waste to non-OECD countries (Articles 40 to 43), the facility audit requirements (Article 46) and the monitoring and safeguard procedure for exports to OECD countries (Article 45) are adapted to confer corresponding powers on the Minister to regulate exports from Gibraltar. The prohibition on exports for disposal is maintained, with the existing Gibraltar carve-out permitting exports to the United Kingdom, the EU and EFTA countries which are Parties to the Basel Convention. The Regulations set out the full transitional regime, preserving the validity of acts done under the 1013/2006 Regulation and providing for the orderly transition to the 2024 Regulation.
